

Humic Substances Research

Vol.9 No. 1 2012

Japan Humic Substances Society

CONTENTS

Noteworthy Paper

- Toxicity and internalization of CuO nanoparticlesto prokaryotic alga *Microcystis aeruginosa* as affected by dissolved organic matter.....1
K. Sazawa and H. Kuramitz

Original Papers

- Thermal treatment of mixtures of rice bran and casein:
Influence of C/N ratio in starting materials on the structural features of humic acids in
the compost-like materials7
H. Kanno, J. Yonaiyama, N. Tachibana, M. Fukushima and S. Kanno
- Molecular-size distribution (MSD)-dependent fluorescence quenching of humic
substances by complex formation with Eu(III) for different fluorophores.....17
S. Tamamura, S. Nagao and M. Yamamoto
- Compositional features of Japanese Humic Substances Society standard soil humic and
fulvic acids by Fourier transform ion cyclotron resonance mass spectrometry and
X-ray diffraction profile analysis.....25
K. Ikeya, R.L. Sleightre, P.G. Hatcher and A. Watanabe
- Report on the 27th Annual Conference of Japan Humic Substances Society.....34
- Report on The 16-th Meeting of International Humic Substances Society.....39
- Information for the JHSS-28 Annual Meeting.....41
- Information: @Standard Samples of Humic Acid and Fulvic Acid.....44
- Membership.....45
- Instructions for Authors (Japanese).....46
- Instructions for Authors (English).....48
- Admission to the Society.....50
