

International Symposium on Recent Progress of Photonic Devices and Materials 2014

November 13th and 14th,
on Takikawa Memorial Hall, Kobe University

Topics

Nanophotonics
Quantum optics
Photonic and nanostructured materials
Photonic devices and application
Ultrafast spectroscopy and devices
Terahertz physics and devices

Plenary Speakers

Mark Fox (The University of Sheffield, UK)
Richard Hogg (The University of Sheffield, UK)

Invited Speakers

Kouichi Akahane (NiCT, Japan)
Takashi Kita (Kobe University)
Junko Hayase (Keio University, Japan)
Hideki Hirori (Kyoto University, Japan)
Chaoyuan Jin
(Eindhoven University of Technology, Netherlands)
Daegwi Kim (Osaka City University, Japan)
Dolf Timmerman (Osaka University, Japan)

Registration Fee: Free
