

JSPS-NSFC (JPN-CHN) BILATERAL PROGRAM CORESEARCH SYMPOSIUM

Zoom & Onsite
check details

July 7, 2023

15:00-17:15

Room LR201
Graduate School of
Engineering
Rokko Campus
Kobe University

Opening 15:00-15:05	Kobe University Prof. Hideto Matsuyama	Opening remark
PI Presentation 15:05-15:20	Kobe University Prof. Hideto Matsuyama	Project and member introduction
PI Presentation 15:35-15:50	Nanjing Tech University Prof. Wanqin Jin	Project and member introduction
Researcher Presentation 15:50-16:10	Kobe University Prof. Keizo Nakagawa	Two-dimensional heterostructured nanochannels for nanosheet photocatalytic membrane reactor
Researcher Presentation 16:10-16:30	Nanjing Tech University Dr. Guozhen Liu	Design and construction of two- dimensional MXene membranes for molecular separation
Researcher Presentation 16:30-16:50	Kobe University Dr. Kecheng Guan	Confined graphene oxide nanochannel membranes for desalination
Researcher Presentation 16:50-17:10	Nanjing Tech University Dr. Guining Chen	Effect of filler structural integrity on separation performance of mixed- matrix membranes: an important yet overlooked issue
Closing 17:10-17:15	Kobe University Prof. Keizo Nakagawa	Closing remark

Research Center for
Membrane and
Film Technology,
Kobe University

Membrane Science &
Technology Research
Center ,
Nanjing Tech University
