

32nd PCRC / GSICS International Law Seminar Regulating Sulphur Emissions from Ships in the Arctic

～北極における船舶からの硫黄酸化物
排出規制について～

Speaker : Medy Dervovic
Arctic Centre, University of Lapland

October 2nd

Friday, 15:10-16:40

Venue : GSICS 6th floor Simulation Room
This seminar is held in English.

This presentation will introduce new legal developments concerning sulphur emission from ships in the Arctic, with a focus on emission control areas, exhaust gas cleaning systems, and port reception facilities.

Medy Dervovic is a researcher on the Horizon Europe ICEBERG project hosted at Arctic Centre, University of Lapland. He pursues a doctoral degree at Reykjavík University. Medy also serves as Editor-in-Chief of *A Compilation of International and Regional Instruments and Case-Law on Minorities and Indigenous Peoples* (Brill Nijhoff). Medy was a GSICS special research student for 6 months (remotely due to COVID-19) under the supervision of Prof. Shibata in 2020-21.
